

Bruce W. Husselbee is the Director of Engineering for the Hampton Roads Sanitation District (HRSD). He has worked for HRSD for twenty-four (24) years. Prior to HRSD, he worked in the consulting engineering field for twelve (12) years. His responsibilities include the management of the Asset Management, Design & Construction and Planning & Analysis Divisions. A major role for his department includes implementing HRSD's \$2.8B, 10-Year Capital Improvement Program.

Mr. Husselbee has been active with many of the professional organizations in the local area including the American Society of Civil Engineers, the Engineers Club of Hampton Roads and is the past Chair of the ODU Civil and Environmental Engineering Visiting Council. Mr. Husselbee is the past chair of the Water Environment Federation Utility Management Committee and a member of the VWEA Utility Management Committee. He is also active in the Design-Build Institute of America (DBIA) and provides training on collaborative project delivery.
